Dear friends,

We give thanks to God that we were able to provide a water well for a village in Tamil Nadu, directly helping 150 families. The villagers come from a very poor and marginalised community. For many years, they lacked safe, clean drinking water. Women, children, and the elderly had to walk long distances each day just to collect unsafe water for their daily needs. Many don't have access to sanitation facilities, resulting in open defecation. During rainy seasons, bacteria can contaminate local water sources and crops, leading to widespread illness from diseases such as cholera and typhoid.

Our project partner and his ministry team gathered with the people of the village to thank God for making this possible and a plaque was installed to dedicate the well for His glory with words from the bible; "With joy you will draw water from the wells of salvation" Isaiah 12:3. This project has brought great joy and relief to the entire community.

The bible reminds us in Matthew 25:35 "For I was thirsty and you gave me something to drink."

Our project partner and the people from the village sincerely express their heartfelt gratitude to you, our generous supporters, for your love, sacrifice, and support. Your kindness has made a meaningful and lasting impact on many lives.

We would like to provide more of these water wells in the villages so more people can be blessed with clean and safe drinking water. If you would like to make a donation to make this possible, please visit our website or write to the address below.

God bless you,

Lisa and the Life Association team
